Mdm Poh was the form teacher of my primary 1 class. She taught us Mathematics and English at that time, but I was seven at that time, so I did not really remember anything significant Mdm Poh done for us. But, after that, I was taught by Mdm Poh again in Primary 4. I was not very strong in Mathematics then, but Mdm Poh had the patience to teach me the sums I had trouble coping with after school, even though the questions were out of the homework she gave us. After that, she helped me out in my Math even when I went on to Primary 5, although I was not taught by her. Mdm Poh also gave me words of encouragement during the most critical and stressful year I faced due to the very important examination we had to sit for. I feel that Mdm Poh is very caring as she shows concern to her students, even though they are not taught by her. I believe I am not the only student to have received Mdm Poh's love and concern.

Tay Jia Yi	6 F	Peter Kok Si Cheh	Mr Kok is my primary 4 and 5 form teacher. I think i was very fortunate that he taught me for 2 years. He helped a lot of pupils with the subjects he was teaching, especially the weaker ones. He bought a lot of books that are really expensive and but of course useful to us. And sometimes, for example, he bought a SCIENCE book for us and he will give it to those who REALLY want it after finish letting the whole class read it. I think that his actions should really be recognised and praised. He did not want us to repay him, he just did it so that we could improve in our studies. He also encourages us a lot.
